

TRẦN CHÍ NGUYỄN

✉ 23122044@student.hcmus.edu.vn | 🌐 chisngyen.github.io | 🐙 chisngyen | 🌐 chisngyen

Research Interests

Drone visual positioning in GPS-denied environments, cross-view geo-localization (drone-to-satellite matching), robust visual perception under adverse weather and lighting conditions, deep metric learning for image retrieval, game-theoretic analysis of LLM agent behaviour.

Education

B.Sc. in Artificial Intelligence

Sep 2023 – Present

University of Science, Vietnam National University Ho Chi Minh City (VNUHCM)

- K23 AI, Faculty of Information Technology. CPA: **9.06/10 (3.83/4.0)**.
- Focus: Computer Vision, Natural Language Processing, Multi-modal Learning.

Research & Professional Experience

AI R&D Lead

Feb 2026 – Present

Realtime Robotics (RTR), Ho Chi Minh City

- Developing visual positioning systems for UAVs — cross-view image matching between onboard cameras and satellite imagery, model compression for edge deployment, and robustness testing under domain shift (weather, season, time-of-day).

Research Team Member — Team HCMUS_TheFangs

2025 – Present

VNUHCM – University of Science

- Mentored by **Prof. Long Tran-Thanh** (University of Warwick) and **Prof. The Anh Han** (Teesside University). Research on LLM agent behaviour in game-theoretic settings — strategy emergence, cooperation dynamics, and alignment implications. Also competing in international NLP shared tasks.

Freelance Software Engineer

2025 – Present

Remote (Canada-based client)

- Full-stack development with React, Next.js, and cloud infrastructure. 6+ months of continuous delivery.

Publications

[†] denotes equal contribution. Author name in **bold**.

Selected Honors & Awards

- **1st Place** — NeurIPS 2025: Mouse vs AI Robust Foraging Competition (both tracks). Dec 2025
- **1st Place (×2)** — NakbaNLP Shared Tasks, LREC-COLING 2026. 2026
- **1st Place (×2)** — AbjadNLP Shared Tasks (Style Transfer & GenEval), EACL 2026. 2026
- **Third Prize** — Vietnam Student AI Olympiad, National Round. Dec 2025
- **Second Prize** — Vietnam Student AI Olympiad, Regional Round. Nov 2025
- **2nd Place** — MMLoSo 2025 Shared Task, IJCNLP-AAACL Workshop. Nov 2025
- **2nd Place** — ALTA 2025 Shared Task (ADE Normalization). Oct 2025
- **2nd Place** — TRACS, WASP Workshop at IJCNLP-AAACL 2025. Harvard CfA & NASA SciX. Oct 2025
- **2nd Place (Top 2/172)** — Dig4Bio Raman Transfer Learning Challenge, Kaggle. Sep 2025
- **Top 3 & Top 4** — EVENTA Grand Challenge, ACM Multimedia 2025 (CORE A*). Jun 2025
- **4th Place** — ENTRep Challenge, ACM Multimedia 2025 (CORE A*). Jun 2025

Research Collaborators

Team HCMUS_TheFangs — University of Science, VNUHCM.

Faculty advisors: Prof. Long Tran-Thanh (University of Warwick), Prof. The Anh Han (Teesside University).

Student members: Dao Sy Duy Minh, Huynh Trung Kiet, Nguyễn Lâm Phú Quý, Phạm Phú Hòa.
